ARTICLES

Roberta Yakimchuk and John Hoddinott The influence of ultraviolet-B light and carbon dioxide enrichment on the growth and physiology of seedlings of three conifer species 1

Mark S. Castro, William T. Peterjohn, Jerry M. Melillo, Paul A. Steudler, Henry L. Gholz, and David Lewis Effects of nitrogen fertilization on the fluxes of N_2O, CH_4, and CO_2 from soils in a Florida slash pine plantation 9

Thomas P. Sullivan, John A. Krebs, and Paul K. Diggle Prediction of stand susceptibility to feeding damage by red squirrels in young lodgepole pine 14

Peter M. Brown and Thomas W. Swetnam A cross-dated fire history from coast redwood near Redwood National Park, California 21

Øystein Johnsen and Geir Østreng Effects of plus tree selection and seed orchard environment on progenies of *Picea abies* 32

A.H. Johnson, S.B. Andersen, and T.G. Siccama Acid rain and soils of the Adirondacks. I. Changes in pH and available calcium, 1930–1984 39

M.W. Moncur, G.F. Rasmussen, and O. Hasan Effect of paclobutrazol on flower-bud production in *Eucalyptus nitens* espalier seed orchards 46

Paul C. Van Deusen Alternative volume and quantity formulas for individual trees 50

Conor O'Reilly, J.N. Owens, J.T. Arnott, and B.G. Dunsworth Effect of nursery culture on morphological development of western hemlock seedlings during field establishment. I. Flushing, shoot elongation, and bud development 53

Conor O'Reilly, J.N. Owens, J.T. Arnott, and B.G. Dunsworth Effect of nursery culture on morphological development of western hemlock seedlings during field establishment. II. Survival, shoot length components, and needle length 61

Anders Fries Development of flowering and the effect of pruning in a clonal seed orchard of lodgepole pine 71

Hans Winsa and Urban Bergsten Direct seeding of *Pinus sylvestris* using microsite preparation and invigorated seed lots of different quality: 2-year results 77

Ervin G. Schuster and Michael J. Niccolucci Sealed-bid versus oral-auction timber offerings: implications of imperfect data 87

Jianwei Zhang and John D. Marshall Population differences in water-use efficiency of well-watered and water-stressed western larch seedlings 92

M.A. Lelu, K. Klimaszewska, and P.J. Charest Somatic embryogenesis from immature and mature zygotic embryos and from cotyledons and needles of somatic plantlets of *Larix* 100

E.R.G. McWilliams and T.E. Burk Evaluation of eight forest fertilizer response estimators by means of a simulation study 107

Julian M. Szeicz and Glen M. MacDonald Age-dependent tree-ring growth responses of subarctic white spruce to climate 120

Thomas B. Lynch, Harry V. Wiant, Jr., and David W. Patterson Comparison of log volume estimates using formulae for log center of gravity and center of volume 133

Robert C. Abt, Jamie Brunet, Brian C. Murray, and Don G. Roberts Productivity growth and price trends in the North American sawmilling industries: an inter-regional comparison 139

Brayton F. Wilson and Matthew J. Kelty Shoot growth from the bud bank in black oak 149

Rong-Ling Wu Quantitative genetics of yield breeding for *Populus* short-rotation culture. II. Genetic determination and expected selection response of tree geometry 155

Paul E. Heilman and Xie Fu-Guang Effects of nitrogen fertilization on leaf area, light interception, and productivity of short-rotation *Populus trichocarpa* × *Populus deltoides* hybrids 166

Y. Hiratsuka, P. Chakravarty, S. Miao, and W.A. Ayer Potential for biological protection against blue stain in *Populus tremuloides* with a hyphomycetous fungus, *Stachybotrys cylindrospora* 174

David A. Lortz, David R. Betters, and Lynn L. Wright Production function for short rotation woody-crop *Populus* spp. plantations 180

NOTES

K.T. Smith and D.R. Houston Metal concentrations in wood of sugar maple infected with sapstreak disease 185

E.R. Smith and K.H. Riitters A comparison of forest canopy transmittance estimators 188

Benoît Côté and James W. Fyles Nutrient concentration and acid–base status of leaf litter of tree species characteristic of the hardwood forest of southern Quebec 192

Bijan Payandeh and Yonghe Wang A site-index model remodified 197

Clinton E. Carlson and Leon J. Theroux Erratum: Cone and seed morphology of western larch (*Larix occidentalis*), alpine larch (*Larix lyallii*), and their hybrids 199

FEBRUARY / FÉVRIER

ARTICLES

John A. Parrotta, Dwight D. Baker, and Maurice Fried Application of ^{15}N-enrichment methodologies to estimate nitrogen fixation in *Casuarina equisetifolia* 201

Phil LePage and K. Dave Coates Growth of planted lodgepole pine and hybrid spruce following chemical and manual vegetation control on a frost-prone site 208

Douglas R. Carter and Frederick W. Cubbage Technical efficiency and industry evolution in southern U.S. pulpwood harvesting 217

Arthur Groot and Brian J. Horton Age and size structure of natural and second-growth peatland *Picea mariana* stands 225

Walter G. Thies, Earl E. Nelson, and Darlene Zabowski Removal of stumps from a *Phellinus weirii* infested site and fertilization affect mortality and growth of planted Douglas-fir 234

Sheila A. Rangen, Alex W.L. Hawley, and Robert J. Hudson Relationship of snowshoe hare feeding preferences to nutrient and tannin content of four conifers 240

Willem W.S. van Hees and Edward H. Holsten An evaluation of selected spruce bark beetle infestation dynamics using point in time extensive forest inventory data, Kenai Peninsula, Alaska 246

Charles K. Muhairwe, Valerie M. LeMay, and Antal Kozak Effects of adding tree, stand, and site variables to Kozak's variable-exponent taper equation 252

M. Crowell and B. Freedman Vegetation development in a hardwood-forest chronosequence in Nova Scotia 260

John C. Zasada, John C. Tappeiner III, Bruce D. Maxwell, and M.A. Radwan Seasonal changes in shoot and root production and in carbohydrate content of salmonberry (*Rubus spectabilis*) rhizome segments from the central Oregon Coast Ranges 272

B.C.S. Sutton, S.C. Pritchard, J.R. Gawley, C.H. Newton, and G.K. Kiss Analysis of Sitka spruce – interior spruce introgression in British Columbia using cytoplasmic and nuclear DNA probes 278

K.H. Rensing and J.N. Owens Bud and cambial zone phenology of lateral branches from Douglas-fir (*Pseudotsuga menziesii*) seedlings 286

M.A. McDonald, B.J. Hawkins, C.E. Prescott, and J.P. Kimmins Growth and foliar nutrition of western red cedar fertilized with sewage sludge, pulp sludge, fish silage, and wood ash on northern Vancouver Island 297

G.T. Ferrell, W.J. Otrosina, and C.J. Demars, Jr. Predicting susceptibility of white fir during a drought-associated outbreak of the fir engraver, *Scolytus ventralis*, in California 302

P.B. Reich, J. Oleksyn, and M.G. Tjoelker Seed mass effects on germination and growth of diverse European Scots pine populations 306

Jeff S. Davis, Daniel W. McKenney, and John W. Turnbull The international impact of forestry research and a comparison with agricultural and fisheries research 321

Charles D. Canham, Adrien C. Finzi, Stephen W. Pacala, and Diane H. Burbank Causes and consequences of resource heterogeneity in forests: interspecific variation in light transmission by canopy trees 337

M.T. Nichols, R.C. Lemin, Jr., and W.D. Ostrofsky The impact of two harvesting systems on residual stems in a partially cut stand of northern hardwoods 350

Michael S. Common and Daniel W. McKenney Investigating the reliability of a hedonic travel cost model: a Monte Carlo approach 358

T.J. Tschaplinski, G.A. Tuskan, and C.A. Gunderson Water-stress tolerance of black and eastern cottonwood clones and four hybrid progeny. I. Growth, water relations, and gas exchange 364

Jonathan Cornelius Heritabilities and additive genetic coefficients of variation in forest trees 372

Thimmappa S. Anekonda, Richard S. Criddle, and W.J. Libby Calorimetric evidence for site-adapted biosynthetic metabolism in coast redwood (*Sequoia sempervirens*) 380

W. David Klemperer, James F. Cathcart, Thomas Häring, and Ralph J. Alig Risk and the discount rate in forestry 390

James A. Moore, Lianjun Zhang, and James D. Newberry Effects of intermediate silvicultural treatments on the distribution of within-stand growth 398

Steven A. Knowe, G. Sam Foster, Randall J. Rousseau, and Warren L. Nance Eastern cottonwood clonal mixing study: predicted diameter distributions 405

NOTES

A.M. Shirazi, J.H. Siller-Cepeda, and L.H. Fuchigami Role of glutathione on recovery of red-osier dogwood plants from "near-lethal" heat stress 415

Kenji Shinohara, Naoki Yamamoto, Yuzuru Mukai, and Keiji Odani Biogenesis pathway of pine chloroplast proteins encoded in the nucleus: import of pine proteins into spinach chloroplasts 419

C. Dana Nelson, Warren L. Nance, and David B. Wagner Chloroplast DNA variation among and within taxonomic varieties of *Pinus caribaea* and *Pinus elliottii* 424

David K. Yamaguchi More on estimating the statistical significance of cross-dating positions for "floating" tree-ring series 427

MARCH / MARS

ARTICLES

Mimi L. Kurz, Dane R. Roberts, Barry S. Flinn, and William E. Vidaver A morphological and biochemical analysis of embryo maturation during yellow cypress seed development 431

T.S. Fredericksen, R.L. Hedden, and S.A. Williams Effect of stem bending on hydraulic conductivity and wood strength of loblolly pine 442

T.K. Lukumbuzya, J.W. Fyles, and B. Côté Effects of base-cation fertilization on litter decomposition in a sugar maple forest in southern Quebec 447

Timothy R. Baker, H. Lee Allen, Michele M. Schoeneberger, and Lance W. Kress Nutritional response of loblolly pine exposed to ozone and simulated acid rain 453

S. Visser, J.A. Addison, and S.B. Holmes Effects of DiPel® 176, a *Bacillus thuringiensis* subsp. *kurstaki* (*B.t.k.*) formulation, on the soil microflora and the fate of *B.t.k.* in an acid forest soil: a laboratory study 462

J.A. Grob and J.N. Owens Techniques to study the cell cycle in conifer shoot apical meristems 472

Arthur J. Stock, J.H. Borden, and T.L. Pratt Containment and concentration of infestations of the western balsam bark beetle, *Dryocoetes confusus* (Coleoptera: Scolytidae), using the aggregation pheromone *exo*-brevicomin 483

Michel Labrecque, Traian Ion Teodorescu, Patrice Babeux, Alain Cogliastro, and Stéphane Daigle Impact of herbaceous competition and drainage conditions on the early productivity of willows under short-rotation intensive culture 493

W. Jan A. Volney and Deborah G. McCullough Jack pine budworm population behaviour in northwestern Wisconsin 502

William R. Harms, Dean S. DeBell, and Craig D. Whitesell Stand and tree characteristics and stockability in *Pinus taeda* plantations in Hawaii and South Carolina 511

Anneli Ylimartimo, Elina Pääkkönen, Toini Holopainen, and Hannu Rita Unbalanced nutrient status and epicuticular wax of Scots pine needles 522

Xiwei Yin Nitrogen use efficiency in relation to forest type, N expenditure, and climatic gradients in North America 533

J.W. Fyles, B. Côté, F. Courchesne, W.H. Hendershot, and S. Savoie Effects of base cation fertilization on soil and foliage nutrient concentrations, and litter-fall and throughfall nutrient fluxes in a sugar maple forest 542

Daowei Zhang and Clark S. Binkley The informational efficiency of the Vancouver Log Market and the financial risk of holding logs in storage 550

Heikki Hänninen and Riitta Backman Rest break in Norway spruce seedlings: test of a dynamic temperature response hypothesis 558

Laurie A. Kashuba-Hockenberry and David R. DeWalle Dendrochemical response to soil liming in scarlet oak 564

D.A.J. Ryan, O.B. Allen, D.L. McLaughlin, and A.M. Gordon Interpretation of sugar maple (*Acer saccharum*) ring chronologies from central and southern Ontario using a mixed linear model 568

David G. Simpson, C.F. Thompson, and Craig D. Sutherland Field performance potential of interior spruce seedlings: effects of stress treatments and prediction by root growth potential and needle conductance 576

A. Zine El Abidine, P.Y. Bernier, and A.P. Plamondon Water relations parameters of lowland and upland black spruce: seasonal variations and ecotypic differences 587

K.I. Swift and R.P. Brockley Evaluating the nutrient status and fertilization response potential of planted spruce in the interior of British Columbia 594

T.A. Greene and D.N. Appel Response of live oak selections to inoculation with *Ceratocystis fagacearum* 603

W.H. Hendershot and F. Courchesne Effect of base cation addition on soil chemistry in a sugar maple forest of the Lower Laurentians, Quebec 609

K. Ingleby, J. Wilson, P.A. Mason, R.C. Munro, C. Walker, and W.L. Mason Effects of mycorrhizal inoculation and fertilizer regime on emergence of Sitka spruce seedlings in bare-root nursery seedbeds **618**

Steven K. Omi, Robin Rose, and Thomas E. Sabin Fall lifting and long-term freezer storage of ponderosa pine seedlings: effects on starch, root growth, and field performance **624**

NOTE

Jeffrey D. DeBell, John C. Tappeiner II, and Robert L. Krahmer Wood density of western hemlock: effect of ring width **638**

DISCUSSIONS

J.R. Seiler and K.H. Johnsen Photosynthesis, water relations, and leaf morphology of xeric versus mesic *Quercus rubra* ecotypes in central Pennsylvania in relation to moisture stress: Discussion of sample size, sampling, and statistical analyses in a physiological genetics paper **642**

Marc D. Abrams and Mark E. Kubiske Photosynthesis, water relations, and leaf morphology of xeric versus mesic *Quercus rubra* ecotypes in central Pennsylvania in relation to moisture stress: Reply. *Quercus rubra* ecotypes revisited **644**
